

VOLUME 10 NOT PUBLISHED

For 40+ years the SALIS Newsletter, ***SALIS News*** has kept SALIS members and subscribers up to date with SALIS activities and important news and resources through reports from its diverse membership. Regular features have included: New Books; News from Canada; news from our European members; and more recently, updates on **The SALIS Collection**, SALIS' special project building a virtual ATOD library. Every year there is a special Conference Issue highlighting key presentations by members and invited speakers, and providing reports from the SALIS Board members and committee chairs.

Most important, ***SALIS News*** captures the history of SALIS and the role our members have played in supporting the alcohol and drug field over the years, and in advocating for specialized information services.
